### The New HUDSON "37" Touring Car--5 Passenger Furnished Complete---No Extras to buy

### Beware of the Car Made for Trading

Get a fair price for your old car. But don't demand anything unreasonable or you will pay for it in unsatisfactory quality and poor service in the new car

If you are trading your old automobile in on a new one, here is a caution you should observe.

There are cars toward the purchase of which a larger price will be allowed for your present automobile than you can obtain in buying a more desirable automo-

It is better to decide upon which car you will prefer. Satisfy yourself that it is the best buy at a CASH price, and that it is the one you would choose if you were paying cash. Then if you are selling your old car, obtain the best bargain possible.

But do not accept merely for the sake of a change in cars, an automobile that you do not consider advisable at a cash price. HUDSONS are not made to

trade. HUDSON automobiles "secondhand" command a higher price proportionate to their original cost than those of any other make

in the medium price class. They are not sold to the dealer at a large discount, thus permitting him to make an extra allowance for old cars. No more profit on the HUDSON is allowed than that given on most automo-

biles at similar price. The quality of the car is to be depended upon to make the sale, not the inducement of price. That

is why 48 engineers are regularly employed by the Hudson Motor Car Company in designing HUD-SON automobiles.

The HUDSON shows what all these men working in unison

They gained their knowledge of motor car building in 97 wellknown American and European factories. They had a hand in building more than 200,000 cars. No restrictions were put upon them in building the New HUD-SONS. The highest quality was sought for and obtained. Price was not fixed.

# Electric Self-Cranking---Electrically Lighted

### THEY ARE COMPLETELY EQUIPPED.

They are electric self-cranking, are electric lighted and have every detail of equipment including speedometer, clock, demountable rims, rain vision windshield, tools, etc.

There are two models, HUDSON cars are furnished in two chassis-the "27," a four-cylinder, and the "54," a six. The equipment is identical in other cars, consistgenerator and ignition system, known as the Delco The equipment is complete in every respect in-

cluding top, rain vision windshield, demountable rims, speedometer, clock, tools, etc. The "37" has a 118-inch wheel base. The "54"

has a 127-inch wheel base. They are furnished in either Five-Passenger Touring Car, Torpedo or Roadster body. The "37" seils

at \$1875-the "54" at \$2450, f. o. b. Detroit. The "54" with Seven Passenger body is \$2600.

ng of an electric cranking device, electric lighting See the Triangle on the Radiator.
